

WINTER PRUNING

We are Currently in the process of performing our annual **“Winter Pruning”** program of the following plant materials: **Crape Myrtles, Pampas & Fountain Grass and Liriope (monkey grass)**. This pruning will be substantially completed by **January 31st**.

MULCH Those PLANTS

We Offer **“Winter Mulching” of plants & beds**. During the process of cleaning leaves and through natural degradation, pine straw and wood mulch is depleted. **To protect your plant root systems** and maintain a quality appearance of your property, please call us to assist with the refurbishing of your mulch.

Multi - Services !!!!!

Don't forget, **Associated Environmental** is more than just a Maintenance Company. We offer FULL SERVICE Landscape Design, Planting, Hardscape Timber & Block structure construction, Pond & Water Feature installation and more. Plan for spring and save 10 % with a winter order.

Boxwood Plant Care

Boxwoods are extremely sensitive to the bitter Cold Temperatures. The leaves will turn a “Bronze Color” if they become dehydrated and are hit with a blast of freezing air after a relatively warm day. To protect against this, Maintain Moist Root Balls at the onset of cold weather.

*In the event of ICE or SNOW DAMAGE, Associated Environmental can assist you with removal of fallen trees & limbs and removal / disposal of debris. **EMERGENCY CONTACT: Dave @ 404-983-5055***
