MARCH Agenda for Lawn & Plants

- 1)** We have just completed our early spring application of Pre-Emergent / Starter Fertilizers for Bermuda & Zoysia Lawns as well as for Fescue lawns where we have seen summer crabgrass problems during the past season.
- 2)** During March, we will be feeding your Beautiful Boxwoods. They will receive an initial 3-Course Meal of Cotton Seed Meal, Milorganite & Ironite. Additionally, all Foundation Plants will also receive their spring fertilizers.
- 3)** In February, all ROSE Plants were Pruned & Feeding began. These plants will continue to receive applications of Fertilizer & Fungicide Treatments during March.
- 4)** Throughout March, we will be “Scalping” our Bermuda & Zoysia lawns to approximately 1 to 1-1/2 inches in height. Following, we will be performing Core Aeration as needed.
- 5)** Around mid March we will be performing Aeration & Over-seeding of Select Fescue lawns.

Let Associated design your Garden & Grounds using a host of Drought Resistant Plants. Conserve water and enjoy the beauty of your Landscape at the same time.

**Call Associated for:
Maintenance, Design, Planting, Hardscape, etc.**
