Rain Delays!

We service every property every week with as complete a service as possible. When it rains, we may shift our schedule slightly and, if cutting will damage your lawn, we may only edge, blow & clean-up.

However, You **WILL** be Serviced . . .

Seasonal Annuals (Flowers)

We are **NOW TAKING ORDERS** for our Spring and Summer annual Color FLOWER planting. *Please call for a free design and Installation / Layout.*

Lawn FUNGUS

We are Recommending **TWO PREVENTATIVE TREATMENTS** of Lawn Fungicide for those lawns commonly found to have fungus Brown Patch and Dollar Spot fungus each year.

We strongly recommend the Preventative Applications.

Seasonal Pruning

We will kick off our 2008 SEASONAL PRUNING Program within the next few weeks. This service is offered to all of our Grounds Maintenance Customers. The Professional Pruning Crew operates on a rotation of approximately thirty days throughout the growing season.

Thank You for your Business”
